

# Security Council

Distr.: General  
7 June 2011

---

## Resolution 1983 (2011)

**Adopted by the Security Council at its 6547th meeting, on  
7 June 2011**

*The Security Council,*

*Deeply concerned* that in the 30 years since the beginning of the HIV epidemic, more than 60 million people have been infected, more than 25 million people have died and more than 16 million children have been orphaned by AIDS,

*Recalling* its meeting of 10 January 2000, on “The situation in Africa: the impact of AIDS on peace and security in Africa” and its subsequent meetings on “HIV/AIDS and international peacekeeping operations”, and reaffirming its commitment to the continuing and full implementation, in a complementary manner of all of its relevant resolutions, including SCR 1308 (2000), 1325 (2000), 1820 (2008), 1888 (2009), 1889 (2009), 1894 (2009), 1960 (2010) and all relevant statements of its President,

*Reaffirming* the Declaration of Commitment on HIV/AIDS of 2001 (A/RES/S-26/2), and the Political Declaration on HIV/AIDS of 2006 (A/RES/60/262) including its commitment towards the goal of universal access to prevention, treatment, care and support which will require renewed efforts at, local, national, regional and international levels,

*Recalling* the MDG Summit Outcome Document (A/RES/65/1) and the report of the Special Committee on Peacekeeping Operations (A/65/19),

*Taking note* of the Secretary General’s report on the implementation of the Declaration of Commitment on HIV/AIDS (2001) and the Political Declaration on HIV/AIDS (2006) (A/65/797),

*Recognizing* that HIV poses one of the most formidable challenges to the development, progress and stability of societies and requires an exceptional and comprehensive global response, and noting with satisfaction the unprecedented global response of Member States, public and private partnerships, non-governmental organizations and the important roles of civil society, communities, and persons living with and affected by HIV in shaping the response,

*Emphasizing* the important roles of the General Assembly and the Economic and Social Council in addressing HIV and AIDS, and the continuing need for

coordinated efforts of all relevant United Nations entities in line with their respective mandates, to assist, in the global efforts against the epidemic,

*Commending* the efforts by the Joint United Nations Programme on HIV/AIDS (UNAIDS) to coordinate and intensify the global, regional, national and local response to HIV and AIDS in all appropriate forums, and the pivotal role of the Global Fund to Fight AIDS, Tuberculosis, and Malaria in mobilizing and providing international assistance, including resources, to respond to HIV and AIDS,

*Recognizing* that the spread of HIV can have a uniquely devastating impact on all sectors and levels of society, and that in conflict and post-conflict situations, these impacts may be felt more profoundly,

*Further recognizing* that conditions of violence and instability in conflict and post-conflict situations can exacerbate the HIV epidemic, inter alia, through large movements of people, widespread uncertainty over conditions, conflict-related sexual violence, and reduced access to medical care,

*Recognizing* that women and girls are particularly affected by HIV,

*Underlining* the importance of concerted efforts towards ending conflict-related sexual and gender-based violence, empowering women in an effort to reduce their risk of exposure to HIV, and curbing vertical transmission of HIV from mother to child in conflict and post-conflict situations,

*Noting* that the protection of civilians by peacekeeping operations, where mandated, can contribute to an integrated response to HIV and AIDS, inter alia, through the prevention of conflict-related sexual violence,

*Underlining*, the continuing negative impact of HIV on the health and fitness of UN missions personnel, and concerned that available statistics indicate that health-related issues, have become a leading cause of fatality in the field since 2000,

*Welcoming* the efforts to implement HIV prevention, treatment, care and support, including voluntary and confidential testing and counselling, programmes by many Member States for their uniformed personnel and by the UN for its civilian staff in preparation for deployment to UN missions,

*Bearing in mind* the Council's primary responsibility for the maintenance of international peace and security,

1. *Underlines* that urgent and coordinated international action continues to be required to curb the impact of the HIV epidemic in conflict and post-conflict situations;

2. *Notes* in this context the need for effective and coordinated action at local, national, regional and international levels to combat the epidemic and to mitigate its impact and the need for a coherent UN response to assist Member States to address this issue;

3. *Notes* that the disproportionate burden of HIV and AIDS on women is one of the persistent obstacles and challenges to gender equality and empowerment of women, and urges Member States, United Nations entities, international financial institutions and other relevant stakeholders, to support the development and strengthening of capacities of national health systems and civil society networks in

order to provide sustainable assistance to women living with or affected by HIV in conflict and post-conflict situations;

4. *Recognizes* that UN peacekeeping operations can be important contributors to an integrated response to HIV and AIDS, welcomes the incorporation of HIV awareness in mandated activities and outreach projects for vulnerable communities, and encourages further such actions;

5. *Stresses* the importance of strong support by UN Mission civilian and military leadership for HIV and AIDS prevention, treatment, care and support, as a factor for reducing the stigma and discrimination associated with HIV and AIDS;

6. *Requests* the Secretary-General to consider HIV-related needs of people living with, affected by, and vulnerable to HIV, including women and girls, in his activities pertinent to the prevention and resolution of conflict, the maintenance of international peace and security, the prevention and response to sexual violence related to conflict, and post-conflict peacebuilding;

7. *Encourages* the incorporation, as appropriate, of HIV prevention, treatment, care, and support, including voluntary and confidential counselling and testing programmes in the implementation of mandated tasks of peacekeeping operations, including assistance to national institutions, to security sector reform (SSR) and to disarmament, demobilization and reintegration (DDR) processes; and the need to ensure the continuation of such prevention, treatment, care and support during and after transitions to other configurations of UN presence;

8. *Underlines* the need to intensify HIV prevention activities within UN missions; *takes note* of the “DPKO/DFS Policy Directive on the Role and Functions of HIV/AIDS Units in United Nations Peacekeeping Operations”, and *requests* the Secretary-General to ensure the implementation of HIV and AIDS awareness and prevention programmes for UN missions;

9. *Requests* the Secretary-General to continue and strengthen efforts to implement the policy of zero tolerance of sexual exploitation and abuse in UN missions;

10. *Welcomes* and encourages continued cooperation among Member States through their relevant national bodies, for the development and implementation of sustainable HIV and AIDS prevention, treatment, care and support, capacity-building, and programme and policy development for uniformed and civilian personnel to be deployed to UN missions;

11. *Invites* the Secretary-General to provide further information to the Council as appropriate.
